SUBJECT: Minutes for Seoul Computer Club Jan 10, 2004

The Seoul Computer Club met at the USO at Camp Kim, Saturday Jan 10, 2004. The monthly topic was Internet Cookies. The guest speaker was our secretary, Lucky Kyle. The wireless access point was up and running.

Host, Special Projects Officer, Balfour, opened the meeting with the introduction of new attendees while attendees enjoyed pizza and sodas. There were 4 new attendees. 19 people attended the meeting.

The Computer News was handled a little differently this month. All attendees were encouraged to share any recent computer news that they were aware of. A few topics were brought up followed by a lively discussion of each.

The Beginner's Corner was presented by Vice President White. He told us the differences between DVD/CD formats. He suggested the best ones to use are the DVD-R for the best compatibility between platforms. His presentation slides are posted on the club web site.

Club secretary, Lucky Kyle, did the main presentation on Internet Cookies. He demystified the objects of suspicion and scorn. Cookies are not malicious and are necessary in some cases, such as shopping web sites, for keeping track of the many web users on the site at the same time. He also told us how to manage cookies from our own browsers and some third party software. His slides are posted on the club web site.

During the business part of the meeting an appeal was made for volunteers to assist Vice-President Mark White with the planning of the annual golf tournament to be held in May 2004. Attendees were also asked to email suggestions for future topics to Activities Officer, Tommy Kramer.

The meeting was adjourned at 1600 Hrs. Next month's meeting will be held on Valentine's Day, 14 February 2004 at the Seoul USO.
